Faith Talk Starters:

Below are a few questions to consider throughout the week.

- God said "it was good." What is your favorite part of creation?
- How much time do you spend outdoors during the summer?
- How much thought do you give to how you "use" resources?
- Do you experience creation as "good"? Do you think about it in terms of it being good for your use or do you also think about how you might be good for it?

Worship Series: God's Wisdom in Nature

EACH SUMMER as children finish school, families head out on the road, and friends gather in the evening beneath sunsets and starry skies. After the long winter – made even longer this year – summer feels like a welcome friend who has returned. The reality is that summer is the time when memories are made. We seem to pay more attention to our surroundings. When we take the time to appreciate our environs, we can do nothing but praise our God of creation. God calls and expects us to do this. Even more, it grows our faith.

We believe that God is evident in all creation. Sadly, generations of people have neglected to see our world as a gift from God. As we grow in our desire and ability to be good stewards of this amazing gift, we actually revert back to ancient and biblical wisdom, namely that principles of God's wisdom and truth can be seen in nature.

Our task is to see God's wisdom and realize our responsibility as stewards of creation. Worship this summer will help us do just that.
